

# Old England

All products within the range are made from durable Acacia hardwood, with a grey painted finish. The slightly textured appearance has been through a controlled wire brushing process to achieve the signature look of the range.

## Maintenance

---

Made from Acacia timber the textured grey finish is the result of 3 coats of paint. After time there will be hairline cracks and surface wear will appear in the finish due to the timber moving.

After the first season, if you want to re-treat your furniture we advise a light sanding before applying a thin later of **Cuprinol Urban Slate**. This can be purchased from local DIY outlets.

We have a range of furniture covers available to fit your furniture.
