

San Marino

The San Marino range encapsulates a sunny, relaxing spot in the Mediterranean and creates a perfect setting for your outside space.

The entire range is manufactured by our team of weavers and welders, out in our factory in the Philippines, which is home to many of the best weavers in the world. Each item of garden furniture in the San Marino collection has been designed with modern aesthetics and ultimate comfort in mind.

Maintenance

We recommend that San Marino is cleaned at least once a year. It is important to use a non foaming cleaner on woven furniture, as a foaming product will leave residue in the gaps in between the weave which will then attract dirt.

A pressure hose on a gentle wide spray setting can also be used to clean your weave.

Our woven products come with cushions in either Charcoal or Oatmeal, and are made from 190gsm 100% Olefin. This is a water and stain resistant outdoor fabric.

Cushions can be cleaned with our Fabric Cleaner and a microfibre cloth. Once dried we recommend applying a layer of our Fabric Protector. Store the cushions in a dry place when not in use.

Spare glass, cushions and footcaps can be ordered at parts.alexander-rose.co.uk.
